PVC COATED POLYESTER

JUMPING CASTLES | SPORTING EQUIPMENT | TENTS | TARPAULINS

CT1000

DESIGNED & BUILT TO LAST LONG-TERM.

CT1000 PVC Fabric is best suited for tough industrial and commercial applications with its robust PVC coating and high tensile strength, offering reliable protection.

Designed to withstand harsh environments, this fabric is both fire retardant and UV-resistant, ensuring long-lasting performance even under extreme conditions. With a vast colour range at your selection, you can be ready to tackle any project ahead.

UV STABILISED

CT1000 fabrics are UV stabilised which prevents them from fading under intense UV rays. It also increases the textiles' longevity and ensures easy cleaning.

FIRE RETARDANT

CT1000 is fire retardant which means the fabrics are designed for commercial environments. Test results are available by request.
