EMOTIONAL PERFORMANCE FABRICS

BLISS

EMOTIONAL PERFORMANCE FABRICS

BLISS is a new brand created by people who have been in the textile industry for a very long time. We have inherited the technical knowledge and resources of Citel – the outdoor performance fabrics manufacturer founded back in 1875 in Barcelona – and added a special sensitivity and aesthetic perspective. BLISS mission is to manufacture performance and decorative fabrics made by and for the senses.

Our team wanted to create a brand that not only demonstrated their technical know-how regarding 100% solution-dyed acrylic fabrics, but also expressed their philosophy of life. BLISS is built on passion, new ideas, effort and an ongoing desire for improvement.

Creating is our favourite state of mind - our bliss -, and the desire to imagine, envision and manufacture fabrics that are truly special is our very reason for being.

ALBIS collection

The Albis fabric is the most suitable to make outdoor light curtains or sheers in open spaces, such as pergolas, bungalows, garden gazebos, or Balinese beds. It combines the highest technical features with the fineness, feel and quality of cotton.

Albis fabrics connect modern spaces with outdoor environments. It filters the light, and preserve an atmosphere of privacy, with discretion and elegance.

The Albis color range —white, stone, sand, smoke and linen— blends with nature, providing a warm and calm atmosphere.

ALBIS COLLECTION

Composition: 100% solution dyed acrylic

Outdoor and indoor use

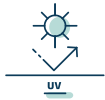

Width: 300 cm (118")

Roll length: 30 m (33 yards)

Warranty: 5 years

Features

UV resistant

Maximum color fastness

Eco long-lasting

Water repellent

Stain repellent

Rotproof and mildew resistant

Suitable for aquatic environments

Easy care

Bleach cleanable

Flame retardancy

NFPA 260 EN 1021-1 BS 5852-1(S4) CA TB 117

Creating is our favourite state of mind - our bliss -, and the desire to imagine, envision and manufacture fabrics that are truly special is our very reason for being.

ASGARD collection

The Asgard collection is named after the land of gods and heroes, according to Norse mythology, meaning “the garden of gods” in Old Norse. We wanted to create fabrics that convey their vision of the relevance, power and beauty of nature.

The textures and colours of Asgard fabrics are inspired by landscapes: forests, grass, rivers and mountains. Their appearance and touch are those of natural and fine materials, such as cotton and linen.

BLISS mission is to manufacture performance and decorative fabrics made by and for the senses.

Our team wanted to create a brand that not only demonstrated their technical know-how regarding 100% solution-dyed acrylic fabrics, but also expressed their philosophy of life. BLISS is built on passion, new ideas, effort and an ongoing desire for improvement.

Creating is our favourite state of mind - our bliss -, and the desire to imagine, envision and manufacture fabrics that are truly special is our very reason for being.

AURA collection

BLISS is all about feelings and emotions, and so are our fabrics. We aim to create fabrics that stir emotions and arouse the senses, as does our New Aura collection, which focuses on the subtle, gentle and eloquent Scandinavian aura as a way of encouraging introspection and self-knowledge. The colours of the Aura collection lead people to a safe place, where they can breathe and take a quiet moment to ponder, dream and enjoy all the good things life has to offer.

URBAN collection

These are the selection of our classic Urban collection. They are fabrics that never turn old-fashioned: urban lifestyle and neutral colors.

Colour BITS collection

Decoding digital drift into emotions. Technology simplifies reality into binary and overlooks a wide range of nuances. It can be efficient, but not animate; sleek, but not exciting. Our aim is to emphasise precisely the opposite of this perception.

This collection decodes digital drift into the emotions and feelings of those who struggle daily to understand and adapt to today's fast-paced technological society.

Our aim is to add a twist to digitally-inspired patterns and shapes and give them new meaning by combining them with vivid colours, so that you really feel something – to avoid indifference and trigger profound emotions.

Green, blue, red, yellow – an intense but light-hearted vision of our digital world.

EMOTIONAL PERFORMANCE FABRICS

BLISS is a new brand created by people who have been in the textile industry for a very long time. We have inherited the technical knowledge and resources of Citel – the outdoor performance fabrics manufacturer founded back in 1875 in Barcelona – and added a special sensitivity and aesthetic perspective. BLISS mission is to manufacture performance and decorative fabrics made by and for the senses.

Our team wanted to create a brand that not only demonstrated their technical know-how regarding 100% solution-dyed acrylic fabrics, but also expressed their philosophy of life. BLISS is built on passion, new ideas, effort and an ongoing desire for improvement.

Creating is our favourite state of mind - our bliss -, and the desire to imagine, envision and manufacture fabrics that are truly special is our very reason for being.

BORN collection

Although we are internationally-oriented, we are proud of our Barcelona heritage. Our fabrics are designed and manufactured here and are influenced by the vibrancy, creativity and modernity of a city that is the perfect blend of tradition and vanguard.

This collection is named after the “Born” neighbourhood, which, in its early days, was home to the textile guilds of Barcelona and is currently famous for its bo-ho feel and artistic vibe. This collection is replete with designs that pay homage to the Gauche divine, a movement of intellectuals and progressive artists that spread throughout Barcelona during the sixties and early seventies – socially committed and artistic members of the bourgeois with a singular vision regarding art, fashion and trends.

The Born collection is one step ahead of Retro, a premium blend of colours and geometric forms conceived especially with sophisticated spaces in mind.

Creating is our favourite state of mind - our bliss -, and the desire to imagine, envision and manufacture fabrics that are truly special is our very reason for being.

CANVAS collection

The Canvas collection depicts the basics of our colourful and sensitive mind. We aim to create a synesthetic experience through the colours displayed and their association with certain emotions, i.e. a chromatic perception that leads to inherently coloured feelings and vice versa.

We have chosen a wide range of essential BLISS hues to create a complete palette that can match any style and space; from earth, neutral and natural colours to brighter and more vivid tones.

Plain, *piqué* and soft flecked weaving are the basis of this playful Canvas collection, which can be mixed and matched with any other design of the BLISS collections.

EMOTIONAL PERFORMANCE FABRICS

BLISS

EMOTIONAL PERFORMANCE FABRICS

BLISS is a new brand created by people who have been in the textile industry for a very long time. We have inherited the technical knowledge and resources of Citel – the outdoor performance fabrics manufacturer founded back in 1875 in Barcelona – and added a special sensitivity and aesthetic perspective. BLISS mission is to manufacture performance and decorative fabrics made by and for the senses.

Our team wanted to create a brand that not only demonstrated their technical know-how regarding 100% solution-dyed acrylic fabrics, but also expressed their philosophy of life. BLISS is built on passion, new ideas, effort and an ongoing desire for improvement.

Creating is our favourite state of mind - our bliss -, and the desire to imagine, envision and manufacture fabrics that are truly special is our very reason for being.

ESCANIA collection

The Escania collection is inspired by the aesthetics and functionality of Scandinavian design from the 50s, with textiles that are specially influenced by Finnish entrepreneur Armi Ratia. The collection designs are simple and geometric: the subtle colours are always filtered with white.

The collection conveys freshness, while combining tradition and modernity, urban and natural features. It takes interior design aesthetics to outdoor spaces, such as gardens and terraces.

100% solution dyed acrylic

ESCANIA COLLECTION

Composition: 100% solution dyed acrylic

Outdoor and indoor use

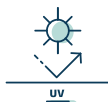

Width: 140 cm (55")

Roll length: 50 m (55 yards)

Warranty: 5 years

Features

UV resistant

Maximum color fastness

Eco long-lasting

Water repellent

Stain repellent

Rotproof and mildew resistant

Suitable for aquatic environments

Easy care

Bleach cleanable

Flame retardancy

JOY collection

Optimism is in our DNA. We create fabrics because this is what makes us happy, and we would like to convey this feeling through our Joy collection. Our desire is to help people listen to their emotions, focus on what is important in life and appreciate the little moments.

The Joy collection is based on the passion, intensity and euphoria that we experience when we are in our Creative Lab surrounded by colours, yarns and crazy ideas.

These colours and textures are the ones that really make us feel Bliss. The purpose of this collection is aim to create happy outdoor living spaces.

PANAMA collection

The Panama collection is a timeless classic encompassing natté fabrics with a fine and grainy surface. In Panama fabrics, warp and weft threads are interlaced so as to form an elegant crisscross pattern.

The Panama colour range comprises essential colours: from a colourful reddish tone, shades of blue or green to neutral browns and greys.

PRADES collection

The Prades collection depicts the garrigue, the typical landscape of Provence. It is a type of low, soft-leaved scrubland or chaparral found on limestone soils around the Mediterranean Basin, generally near the seacoast.

Using many different threads and a jacquard processing technique enables us to create an embossed texture with an attractive vintage look. The colour mix, which is inspired by nature, BLISS's main source of inspiration, provides these fabrics with a look reminiscing about the many chromatic hues of the Mediterranean fields.

Essential ROOTS collection

Stepping back into who we really are.

Something that endures over time, over generations, is something significant. Like popular wisdom and culture, the intangible treasures of any civilisation, aesthetics and visual perspective are gems that have been transmitted over time, even unconsciously. This collection recaptures traditional aesthetics and moulds perennial trends in order to arrive at new but, at the same time, age-inspired designs that are ideally suited for our contemporary lifestyle.

This collection is a blend of textures, finishes and materials. Who would have thought the classics still had so much to say? A vintage look and feel to revitalise any space.

Creating is our favourite state of mind - our bliss -, and the desire to imagine, envision and manufacture fabrics that are truly special is our very reason for being.

TALES collection

Stories. We define ourselves as storytellers and this is what we expect from our fabrics. Not only they reflect an idea and are created after the experiences of our designers, but we also want to create a comfortable space with them. A place that invites people to chill for hours: talking, sharing and caring.

The Tales collection is inspired by those endlessly afternoon gatherings around a fireplace. With this collection we want to help create warm, cozy and comfortable homes making outdoor spaces also suitable also in Autumn and Winter. Beiges, bone and ivory mixed with subtle colors are our chromatic proposal to convince people to stay outside and spend time together with the beloved ones just as we used to do. As we will always do with Bliss.

100% solution dyed acrylic

TALES COLLECTION

Composition: 100% solution dyed acrylic

Outdoor and indoor use

Width: 140 cm (55")

Roll length: 50 m (55 yards)

Warranty: 5 years

Features

UV resistant

Maximum color fastness

Eco long-lasting

Water repellent

Stain repellent

Arise emotions and awake people senses

“We have had a long and beautiful love story with textiles for more than 100 years. Now, we are ready for this new chapter in which we have found our true-self.

We will keep working to make Bliss a design-led innovator and fuse the technical branch of performance fabrics with the boundless creativity of the world of emotions, fashion and decorative textiles.”

Established in 1983, Ricky Richards is a family owned and operated business that has grown to become Australia's leading supplier of specialised textiles. Ricky offers the highest quality textiles, along with a commitment to large stock holdings and excellence in customer service.

We are very fortunate to have enjoyed long-standing partnerships with our suppliers. Our value of people extends to the range of worldwide suppliers that we are proud to call a part of the Ricky family. Now, we welcome an extension of Citel Technical Fabrics, BLISS, to our portfolio.
